It is the most common honey in the world and in our country as well.

Sunflower Honey
260g, 500g and 1kg

Sunflowers are the summer landscape in the Alentejo fields, where beekeepers take their bees to pollinate and collect the nectar of this flowers

Florest Honey
260g, 500g and 1kg

Chestnuts, oaks, pine trees and heather flowers are the main components of this type of honey. It has a very dark color, an intense aroma and a strong, slightly woody, flavour.

Orange Tree Honey
260g, 500g and 1kg

This honey is obtained from the nectar of the orange tree flowers of Algarve. It has a light colour and, by opening the jar, we can sense the aroma of the orange trees of this region.

Arbutus Honey
260g, 500g and 1kg

Typical on the mountains of Alentejo and Algarve, it is a very specific honey due to its bitter taste, reminiscent of coffee. At the first taste it may appear bitter but it quickly reveals its complexity and sweetness.

Wild Lavender Honey
260g, 500g and 1kg

The Wild Lavender plants grows wild throughout the interior of Portugal, making it the most peculiar honey of our country. Its colour reminds us of gold and it has a very floral aroma which is a characteristic of the Lavender plants. When we taste it we perceive it as being, probably, the world's sweetest honey!

Mountain Honey
260g, 500g and 1kg

This honey is harvested from the nectar of the flowering plants and shrubs which grow more than 600 meters high in the mountains of our country. It can show various colours and flavours depending on the region where it is harvested, although it usually presents intense and strong flavours. It is excellent for the respiratory track.

Thyme Honey
250g, 500g and 1kg

It is harvested in several areas of our coastline. Thyme is a plant with a large percentage of thymol, which provides a very intense and aromatic sense, with a taste of menthol and mint. Due to its elevate content of thymol, this honey is quite therapeutic regarding its recognized antiseptic properties. It's a rare honey in the world because Thyme it's a very sensitive plant, not being possible to harvest it every years.

Honey Combinations
Tube -75g
